

Date: January 19, 2016  
From: P. Matthews  
VI-SNG Product Manager

Subject: **PCN: V-PCN-SNG160119**  
**VC-710 & VX-700 VCXO Discontinuation/replacement**

To: *Vectron Customer:*

This PCN is to inform Vectron's intent to discontinue the legacy VC-710 and VX-700 VCXO product offerings and offer an equivalent replacement from the VX-705 family.

Product affected by this change: **VC-710, VX-700**  
Replace/Substitute part: **VX-705**

Vectron had announced the decision to discontinue the VC-710/VX-700 products in 2013 but had continued to offer these products with limited frequency options to a small select customer base

Vectron is notifying that the VC-710 and VX-700 will be discontinued with the VX-705 platform as a replacement option.

Specification sheet for the replacement parts will be custom datasheets available upon request and is also attached with this PCN for your review.

Specific replacement is recommended as follows:

Current Part	Replace With
VC-710-DFE-GFA-155M520000	VX-705-XXX-XXX-XXXMXXXXX

Vectron is requesting that customer should make the change as soon as possible.

**Vectron intends to implement this change effective immediately.**

**VI PCN ACKNOWLEDGEMENT  
&  
RETURN RECEIPT**

Upon completion, please return this form to:

P. Matthews  
pmatthews@vectron.com

I have received the VI PCN # **V-PCN-SNG160119** associated with replacement of the VC-710 & VX-700 VCXOs with the VX-705
