Specification for monolithic crystal filter: **MQF 10.7-2000/07**

1. **General**
   1.1. Package:

2. **Electric values**
   2.1. Nominal centre frequency $f_0$: 10.7 MHz

3. **Stop band**
   3.3. Alternate attenuation: > 80 dB (except spurious)

4. **Environment conditions:** Vectron MIL-standard
