***Vectron International Unveils Website Showcasing
Acoustic Wave Sensors Technology***

Further Demonstrates Company's Commitment to Meeting Market Demand for Reliable Sensor Applications, Provides Customers and Prospects with Detailed Product Information

MUNICH, GERMANY— Vectron International, a leader in the design, manufacture and marketing of Frequency Control, Sensor, and Hybrid Product solutions, today announced from electronica 2006 the launch of a new, dedicated website for its Acoustic Wave (AW) Sensors and Advanced Packaging business unit. The new site serves as a resource for customers, partners and the media regarding Vectron's Acoustic Wave Sensors technology, a technology that is driving change and innovation in the \$10 billion global sensor market and setting a new standard for performance and reliability in critical data gathering applications.

Vectron leverages its well-established foundation of surface and bulk acoustic wave (SAW and BAW) technology and extensive experience in radio frequency (RF), signal conditioning, embedded system electronics design and advanced packaging technologies to meet increasing customer demands for durable, state-of-the-art precision sensor solutions across a broad range of industries.

WHO: Vectron International, Sensors and Advanced Packaging Group

For more information:

USA:

Vectron International, 267 Lowell Road, Hudson NH 03051
Tel: 1-88-VECTRON-1 Fax: 1-888-FAX-VECTRON
e-mail: vectron@vectron.com Internet: <http://www.vectron.com>

Europe:

Vectron International, Landstrasse, D-74924 Neckarbischofsheim Germany
Tel: 49 (0) 7268 8010 Fax: 49 (0) 7268 801281

Asia:

1F-2F, No 8 Workshop No. 308 Fenju Road WaiGaoQiao Free Trade Zone Pudong, Shanghai, China 200131
Tel: 86 21 5048 0777 Fax: 86 21 5048 1881

WHAT: A new Acoustic Wave Sensors and Advanced Packaging website, www.VIsensors.com

WHERE: electronica 2006, Munich, Germany

WHEN: Vectron will be displaying the new website as well as its advanced packaging and sensor products in booth 237, Hall B5 from November 14 – 17, 2006

HOW: To schedule a meeting with Tom Cunneen, vice president, sensors and advanced packaging, about Vectron's innovation solutions please contact Jessica Ryan at 617-587-2923 or jryan@brodeur.com.

About Vectron International

Vectron International is a world leader in the design, manufacture and marketing of Frequency Control, Sensor, and Hybrid Product solutions using the very latest techniques in both bulk acoustic wave (BAW) and surface acoustic wave (SAW) based designs from DC to microwave frequencies. Products include crystals and crystal oscillators; frequency translators; clock and data recovery products; SAW filters and components used in telecommunications, data communications, frequency synthesizers, timing, navigation, military, aerospace and instrumentation systems. The company is headquartered in Hudson, NH and has operating facilities and sales offices in North America, Europe and Asia.
